

*Designers, Planers  
& Builders of theme Attractions*

# *Pleased to meet you (and dream together)*

We established "Tapuz - The Dreams Workshop LTD" a few years ago with the aim of - you guessed it - realizing dreams and fantasies.

## **What do we do?**

We specialize in planning, design and creation of theme centers and attractions for kids and teenagers, as well as improving and upgrading existing areas, for children, teenagers and adults indoor and outdoor..

## **How do we realize dreams?**

Firstly, we think like children.

The dreams and fantasies are designed by the company's creative teams together with architects and construction consultants, the actual implementation is done by our team of craftsmen (and women) who are experts in a variety of fields such as artistic carpentry, sculpting with diverse materials, artistic drawing and painting, painting on wood, set design and more. Our team members are graduates of the best schools in their fields worldwide.

The creative sharing, thinking and synergy in the process creates a unique combination of art, design and advanced technology at the highest standards.

## **Who are our customers?**

Our extensive list of customers includes: hotels, resorts and tourist centers, shopping centers, schools, water and amusement parks, large playgrounds alongside neighborhood playgrounds, various public sites and more.

## **Our method for realizing dreams**

It all starts with a very talented creative team who just loves challenges.

After the creative team is done dreaming, the design and imaging department springs into action, then the actual work begins: at 'Tapuz - The Dreams Workshop LTD' we have our own wood processing center which also serves for processing and sculpting of other materials, the center is equipped with the most advanced tools. These wonderful devices are operated by a team of skilled woodworkers and talented stage décor artists. When processing is done, artists can work their magic while spraying fire retardant materials, applying a protective varnish and painting large surfaces.

**We create dreams all year long in order to bring joy & happiness for kids all over the world, we welcome you to be a part, and as we say:**

# Theme Kids Clubs

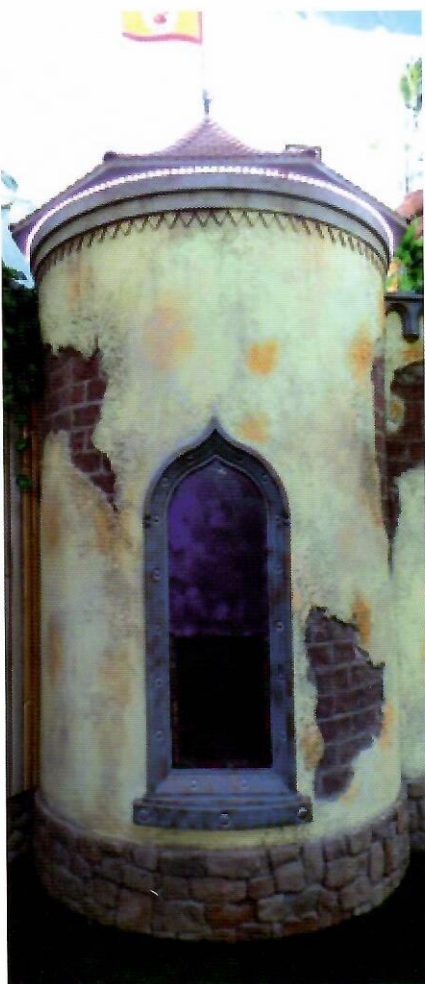

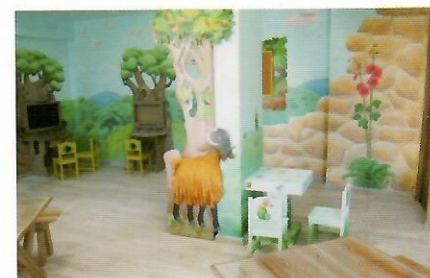

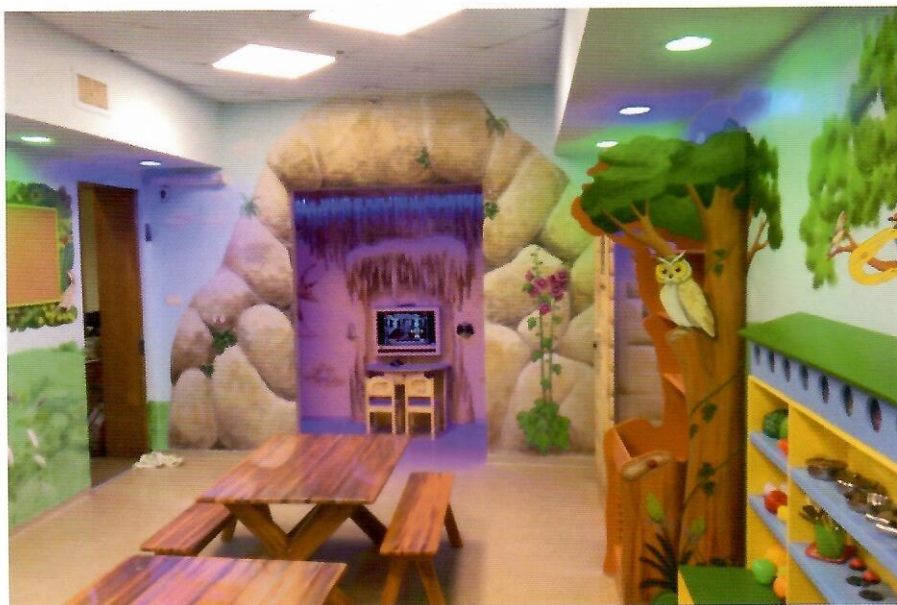

High quality theme kids club are the combination of a welcoming and attractive look alongside interesting & attractive content.

Such a kids club will become a place of interest one that your remember and wish to come back.

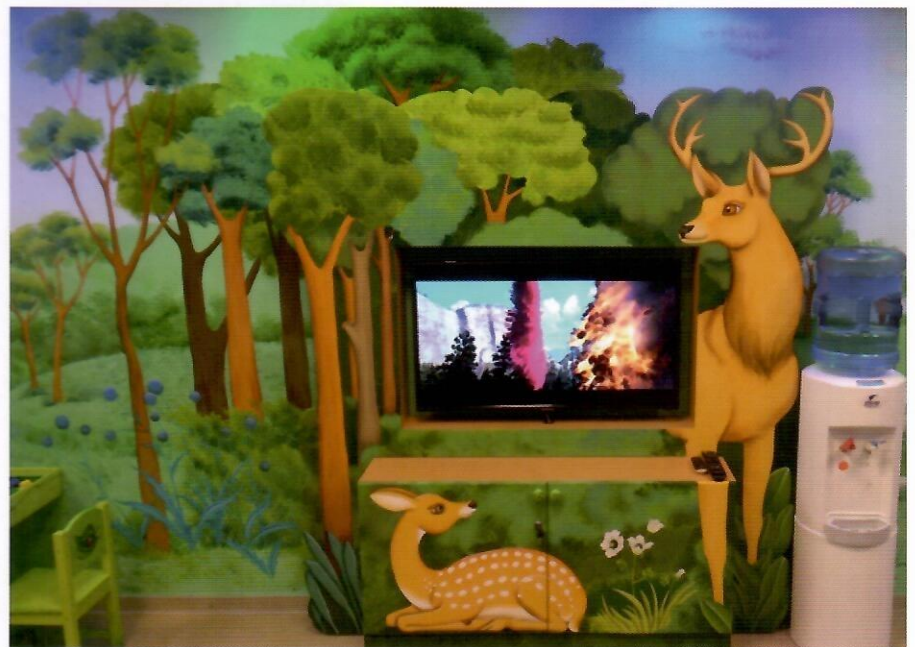

When families choose a place for a vacation, one of their main considerations is the activities and area designated for children: a good attractive and interesting kid's club will make the deferent.

# Teenagers club & Interactive Game Rooms

During our many years of work, we learned that one of the most challenging issues in tourism is creating an interesting and attractive environment for teenagers. So we planned, designed and created special place combined the teenagers club with interactive game room. Our interactive game rooms may be used during the day as game room, and in the evening as a place for fun and entertainment, watching movies and listening to good music, a perfect get together place for the teenagers. In recent years, youth clubs have become a great success. Our customers tell us it is the perfect solution for teenagers, they happily spend their time there...

# Outdoor attractions

## *Outdoor playing compounds and attractions*

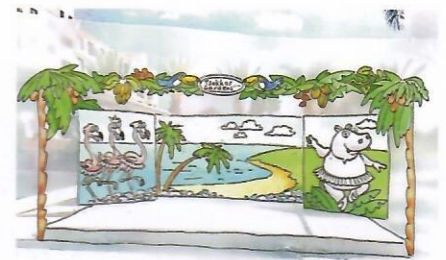

*One of the main attractions for children in hotels, resorts and shopping centers are outdoor facilities. Together with the indoors activities, outdoor facilities complement their fun experience.*

*What are the attractions we offer?*

- *Designed playgrounds and facilities.*
- *Mini golf compounds for the whole family.*
- *Water attractions – from cool accessories for pools to big water slides.*

# Outdoor attractions

# Indoor playgraounds & soft areas for tudlers

A family vacation, a shopping experience or a fun day at a theme park or water park can be simpler and much more enjoyable if toddlers have an appropriate activity. Nowadays toddlers' clubs are common in malls, apartment buildings, large companies, near hotels and other recreational centers.

"Tapuz - The Dreams Workshop" creates the perfect solution of activity areas for toddlers with activities for children and infants aged 1 to 4 years. Our toddlers' play clubs have a variety of attractions and game options. All our products are safe and of high quality with a perfect and captivating look. Our activity clubs are always designed with the children's physical and mental development in mind.

# *Designed solutions for institutions & businesses*

*Over the past decade many commercial centers, shops and educational institutions turned to us for a designed concept-based solution for their customers. In order to address these sectors and we, at "Tapuz - The Dreams Workshop" are working and developing products to suite our customers' various needs from a design perspective as well as the content.*

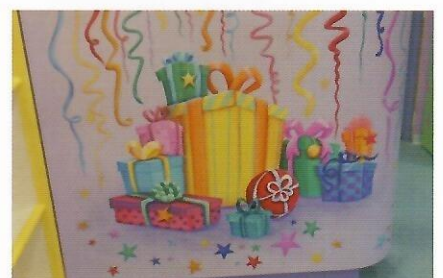

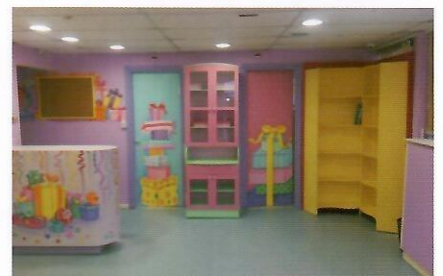

# Waiting Areas

We are all familiar with the experience of waiting for long periods of time in waiting rooms. We, as adults, are usually provided with activities to pass the time such as reading, watching TV and more. But what can children do while waiting?

We have developed a number of models for waiting areas which appeals to children and makes their waiting time pleasant and enjoyable.

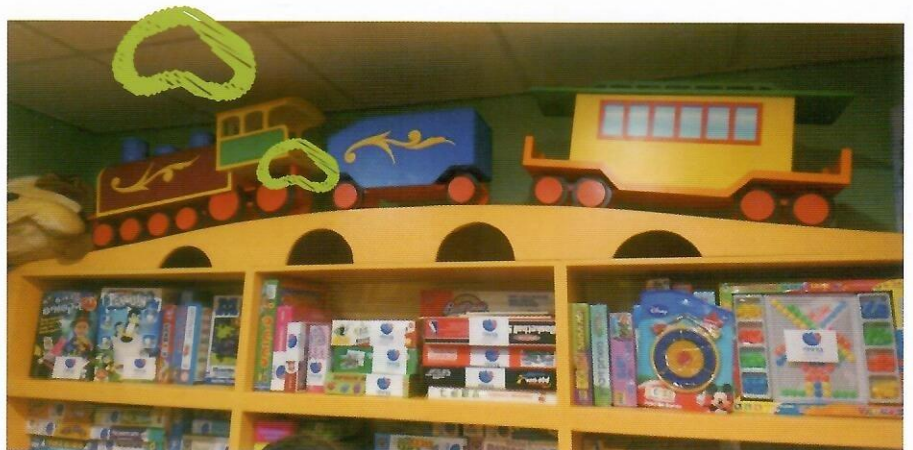

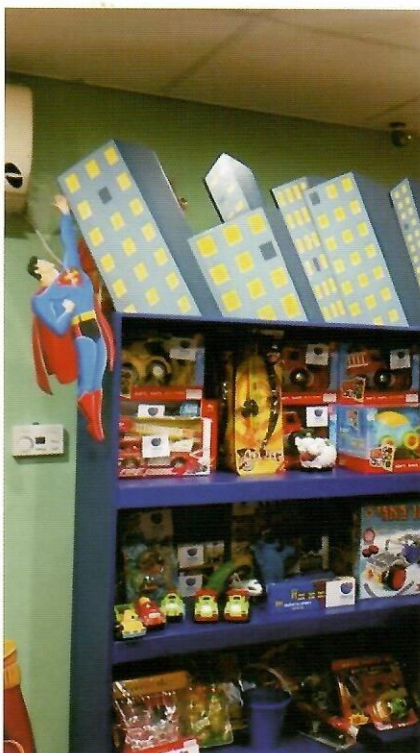

## Concept Stores

A shopping experience in a store does not comprise only of exciting quality products, good service and attractive prices. The store's appearance is equally important since it is the one thing the customer will most remember. More and more businesses realize the significance of a design concept and its application on the entire store.

# Designs for hospitals

We see these projects as a real mission and we are happy to provide a more pleasant space for hospitalized children and their families. We carried out various projects for medical institutions in the public and private sectors. This is an important part of our activity.

# Designed classrooms and educational centers

To our delight, quite a few educational institutions turn to us to design dedicated educational centers and classrooms. During the past two years we have been greatly developing this subject, turning dedicated classrooms into pleasant and appealing learning environments.

# Consulting, management and construction of themed projects

# *When Tech meets Art...*

*During our years of work one of our goal was to create interactive experiences that combine the past with the present, new with old, art with technology. Together with our talented partners "Double A's team of experts" we create game oriented activities and fitting the content to any concept and design. Our aim is to tailor for each customer its own exclusive experience.*
